**Annualized performance and volatility are since inception, including back-test results prior to February 02, 2022*

An index to track Emerging Market and Frontier Market companies with significant exposure to financial technology (FinTech) solutions and applications.

The Case for Emerging Markets FinTech

- 1. Transition from Cash-Based to Digital World** - Thanks to pandemic-driven consumer needs and behaviors, digital disruption in Emerging and Frontier Markets has accelerated, fueling rapid innovation in FinTech.
- 2. Supported by Favorable Demographics** - Emerging Markets make up nearly 85% of the world's population and only 37% of the world's goods and services.¹ Home to a young, tech-savvy population, emerging countries have shifted from being primarily export-driven to increasingly consumer-oriented-growth economies.
- 3. More Smartphones than Bank Accounts** - According to the World Bank, 1.4 billion people are "unbanked" globally, while 85% of the world's population owns a smartphone.² It is estimated that financial identities for the world's unbanked population, could add \$250 billion to global GDP.³

¹IMF, *World Economic Outlook, Summer 2021*; ²World Bank, *July 21, 2022, Exploding Topics, January 26, 2023*;

³Oxford Economics Group, *Juvo, December 13, 2019*
